

THE JOINT CHIEFS OF STAFF
WASHINGTON 25, D.C.

JOINT METEOROLOGICAL COMMITTEE

25 February 1946

MEMORANDUM FOR LIEUTENANT EDWARD L. ULLMAN, SECRETARY, JOINT
INTELLIGENCE STUDY PUBLISHING BOARD:

Subject: Classification of JANIS Studies

1. In response to our telephone conversation of 20 February, the following information is offered:

a. In order to accomplish the declassification desired in your memorandum dated 17 January 1946, subject: "Cancellation of Classification of Certain JANIS Publications," the portions of JANIS indicated would have to be unclassified, according to Army and Navy regulations.

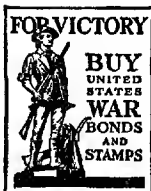

b. The Joint Meteorological Committee has handled a similar matter (the distribution of Daily Synoptic Series of Historical Weather Maps) in a manner which would be applicable to the desired distribution of certain portions of JANIS.

"The Joint Meteorological Committee has decided that classification of these maps under rigid security regulations would unnecessarily restrict their official use by forecasters and research collaborators on official projects of the United Nations. They are, therefore, "Unclassified." Distribution is, however, restricted to an approved list of official agencies. Copies are not to be transferred by the recipient to another agency for the duration of war without authority of the Joint Meteorological Committee. All recipients should take necessary steps to prevent copies falling into hands of persons who would put them to uses prejudicial to the interests of the United States and her allies."
